The framework shall include target dates for all meets at all levels of North Carolina Swimming and protected dates. The framework shall begin with national, zone, sectional, and regional meet dates and provide for logical progressions toward season culminating events for all levels of NCS swimmers.
- .3 A protected date is a date where no additional NCS sanctioned meets open to a particular level of swimmer may be subsequently added to the schedule.
- .4 The actual day of any regularly scheduled House of Delegates meeting shall be considered a protected date.
- .5 The Board of Directors shall review the recommended framework submitted by the Technical Planning Committee, approve a scheduling framework, including any changes it may wish to make, and post the approved framework to the North Carolina Swimming website at least ninety (90) days prior to the upcoming House of Delegates meeting.
- .6 Based on the approved scheduling framework, the Technical Planning Committee shall solicit bids from member clubs and prepare a recommended schedule for consideration by the House of Delegates.

This form shall include proposed dates, site, type of meet, tentative order of events and qualifying standards (if any), and other relevant information about the meet, including whether a facility surcharge would be assessed. In addition, for NCS Championship and other defined (either by Rule or policy) meets, the bid form shall include a statement of acceptance by the bidding club of all Rules or policies applicable to the meet being bid.
- .8 At each appropriate House of Delegates meeting, the House of Delegates will approve, with possible modifications, the corresponding upcoming season schedule.

Any requests for additional meets must be submitted prior to the appropriate sanctioning deadline. The Technical Planning Committee shall have the authority to approve or reject any additional meets that require prior scheduling approval. A club may appeal a rejection to the Board of Directors.

.11 In the event that a scheduled meet, considered essential to the schedule, is not going to be held by a club, the Technical Planning Committee is authorized to solicit bids from other clubs and make a recommendation for an alternate host to the Board of Directors for final determination of alternate host.
